

PADI 2019 APPROVALS

#	App #	Amount Approved	First Name	Last Name	Program Name
1	36686	12000	Melinda	Coleman	Exploring unique Omani kelp forests to transform global underwater forest conservation
2	40312	3000	Sella	Runtulalo	Sea Turtle Protection through Educational and Outreach Programme in Ranowangko Dua Village of North Sulawesi, Indonesia
3	40318	7930	Sabina	Llamazares Vegh	Fishes are really what they eat? Tracking the route of Prochilodus lineatus: The case of a migratory species in the Paraná river, Argentina.
4	40433	5000	Johann David	Lankes	Effects of Sargassum spp. presence on calcification rates, growth and survival of Acropora cervicornis coral outplant fragments in ocean acidification conditions.
5	40457	8000	Damián Gustavo	Vales	Tracking the trophic ecology of fur seals and sea lions during the last 7,000 years: What can they tell us about marine food webs in Patagonia?
6	40470	3840	Sergio	Cobarrubia-Russo	Study of social structures, social networks and vocal repertoires between bottlenose dolphins and Atlantic Spotted dolphins on the coast of Aragua, Venezuela.
7	40486	9004	Julieta	Antacli	First approach on microplastics in Antarctic coastal environments: Zooplankton plastivory
8	40528	5000	Loubna	Boutahar	Characterize for the first time the benthic macrofauna communities associated to the seagrass Zostera marina, the only one which still exist in Morocco, though in North Africa, located at the marine part of the site
9	40529	5000	Daniela	Mejia	Utila Coral Restoration & Monitoring
10	40551	1500	Allan	Gilles	Comprehensive Checklist and Risk Assessment of non-native freshwater fish in Luzon Island, Philippines: Contribution of Ornamental and Food Aquaculture Industry
11	40568	3750	Alastair	Baylis	Conservation of South American fur seals on the Patagonian Shelf
12	40569	4930	Phil	Hastings	Exploration of potential shark nursery habitats within two contrasting embayments in San Diego, California
13	40579	500	Horia	Galea	Haleciid hydroids (Cnidaria: Hydrozoa: Leptothecata) of the Bali Sea, Indonesia
14	40594	6128	Carina	Marón	Feeding ecology and reproductive success of southern right whales off Argentina: are whales dependent on krill for successful reproduction?
15	40605	10000	Caroline	Brady	PADI Summer Internships
16	40606	5100	Benjamin	Gutzler	Using dataloggers to investigate the behavior and physiology of lobsters in their natural habitat

PADI 2019 APPROVALS

#	App #	Amount Approved	First Name	Last Name	Program Name
17	40607	5647	Cristian	Lagger	Glacier retreat and emerging ice-free areas in Antarctica: responses of sponge assemblages
18	40618	5640	Gaston	Alurralde	Disentangling diversity and invasions by ascidians at the Argentine Sea using DNA barcoding
19	40619	6198	Lionel	YAMB	Assessing the conservation status and developing awareness of sharks and rays in Northern coastline of Cameroon
20	40621	4688	Clarisse	Louvard	The missing link: investigating pelagic planktonic molluscs as vectors for transmission of parasitic flatworms to large Australian pelagic fishes
21	40626	6160	Nupur	Kale	Engaging local community for monitoring marine turtles in the Lakshadweep Islands
22	40638	3141	Andrew	Villeneuve	Investigating evolutionary response across latitudinal and local thermal gradients in a marine gastropod
23	40641	4950	Daniel	Lauretta	Stony corals and zoantharians (Cnidaria: Anthozoa: Scleractinia, Zoantharia) from the southwestern Atlantic deep-sea
24	40651	7350	Ramvilas	Ghosh	Distribution, population status and threats of the Snowflake coral (<i>Carijoa riisei</i>) in India
25	40674	9000	Long	Vu	Investigating the ecology of dugongs in Con Dao Archipelago, Vietnam
26	40676	5000	Wei Khang	Heng	Spatial ecology from above: Incorporating drone in identifying populations and habitats of dugongs and sea turtles in Johor, Malaysia
27	40677	6520	Tran	Dung	Nutrients and potential mobility of phosphorus in mangrove sediments with different land use pattern in south of Vietnam: implication to water quality in the context of climate change
28	40682	3292	Rachael	Orben	Black-browed albatross fisheries interactions during winter
29	40688	2500	Amir	Bar	Understanding submerged Beachrock along the Mediterranean coast of Israel: survey, sampling and geographical interpretation.
30	40695	5108	Elizabeth	Hasenmueller	From the Mississippi River to the Gulf of Mexico: Microplastic debris load quantification using rating curves
31	40701	5000	Eric	Vreeland	The #byetobags program is a student-led Saint Louis (MO) Zoo initiative to activate 3 million annual Zoo visitors to reduce the prevalence of plastic pollution through the use of sustainable, reusable shopping bags.
32	40711	5800	Andy	Danylchuk	Great hammerheads and Atlantic tarpon: The effects of angling in a fish-eat-fish world
33	40715	1500	Matthew	Barley	Characterization of Sedimentology of Louisiana's Sediment Borrow Areas

PADI 2019 APPROVALS

#	App #	Amount Approved	First Name	Last Name	Program Name
34	40719	4180	Zulhan Arifin	Harahap	Climate Change Impacts On Small Islands in North Maluku Province, Indonesia
35	40722	2950	Kylie	Walker	Human Impact On Northern California Sandy Beaches and its Effect on Shorebird Use
36	40723	2234	Paola Beatriz	Reyna Sandri	Witnesses in silence: what ascidians, molluscs and algae can tell about heavy metal contamination in a Patagonian coast, Argentina
37	40724	9000	MacKenzie	Sandy	PADI Foundation Leaders Initiative Scholarship: Developing diverse marine science leaders through education and mentorship
38	40739	2800	Antonela	Martelli	Conservation and controlled exploitation of invertebrates marine resources: predictive models of recruitment and input about decision-making for sustainable fishing
39	40743	4720	Rebecca	Van Hoeck	Acoustic cues as drivers of habitat use and selection by temperate marine fishes
40	40747	3000	Bárbara	Ribeiro	Assessing the vulnerability of calcareous sponges under climate change in different life stages and their possible adaptive mechanisms
41	40751	5120	Ana	Herrera-Reveles	Assessment of fishery and ecology traits of coral reef fishes at Chichirivichi de la Costa: implementing a conservation strategy of threatened fishes in Venezuela from a socio-ecological approach
42	40753	7000	Arturo	Ayala Bocos	GHOST NETS: LOOKING FOR KILLERS OF MARINE LIFE IN DEEP REEFS
43	40761	6975	Nathan	Spindel	Metabolic Scaling in the Era of Climate Change
44	40768	4000	David	Bruce	Mapping and Modeling of the Seattle Fault Tsunami Inundation in Puget Sound
45	40775	5400	Emily	Gipson	Using compound specific stable isotope analysis of amino acids to identify depth-related changes in trophic baseline of pelagic food webs
46	40778	6200	Prasant	Muduli	Awareness & education on conservation of endangered species of olive ridleys turtle with primary stake holders of Rushikulya river mouth in Ganjam District of Odisha
47	40787	3050	Nur Leena	Wong W.S.	Marine Invertebrate Guidebook Publication, Malaysia
48	40788	3300	Alen	Shakirov	Analysis of sturgeon poaching activity and its impact on biodiversity of the Caspian Sea
49	40799	2000	Sara	Vasquez	The effects of kelp harvesting on trophic ecology of redspotted catshark <i>Schroederichthys chilensis</i> (Guichenot, 1848)
50	40814	7500	Emily	Buckner	Land-Sea Connectivity: Exploring Terrestrial Trophic Linkages in Puget Sound Kelp Forests
51	40829	4640	Ethan	Cissell	Investigating bacteriophage interactions with emerging benthic cyanobacterial mats

PADI 2019 APPROVALS

#	App #	Amount Approved	First Name	Last Name	Program Name
52	40831	8725	Ana Sabrina	Riverón Mato	Assessing trophic interactions between key marine apex predators off the Uruguayan coast
53	40833	4878	Tiago	Repolho	The effects of global climate change and environmental driven chronobiology on a pioneer seagrass species (<i>Zostera noltei</i>)
54	40842	4950	Eddy	Nnanga	Improvement of the conservation status of sea turtles on the northern coast of Cameroon through the capacity building of local fishermen on beach monitoring
55	40857	5300	Jannine	Chamorro	Determining the role of DNA methylation in the thermal acclimation of California mussels (<i>Mytilus californianus</i>) along a natural ecological gradient
56	40858	4461	Mahi	Mankeshwar	Capacity building and outreach in the Southern Andaman Important Marine mammal Area.
57	40864	3200	Elizabeth	Holzenthal	Optimization of seagrass restoration configuration to support long-term survivability and buffering capacity
58	40865	4300	Andrew	Kurtz	Partnering with the offshore sailing community to monitor marine microplastic pollution
59	40866	5073	Anargha	Setiadi	Sea turtles in Haji Buang: A baseline work towards the restoration of an Indonesian jellyfish lake
60	40869	2990	Kathryn	Scafidi	The effects of an invasive alga, <i>Sargassum horneri</i> , on the trophic dynamics of temperate rocky reefs
61	40900	4700	Hanny	Rivera	Gene expression patterns of corals across a natural, futuristic temperature and pH gradient in Palau
62	40946	8100	Emiliano	Garcia Rodriguez	Identifying priority areas for management and conservation of juvenile white sharks inside a nursery area.
63	41025	8600	Vincent	Quiquempois	Trophic Interactions and Habitat Requirements of Omura's whales in the Mozambique channel
64	41040	5046	Erin	Shilling	Implementing disease intervention strategies on corals in the southeast Florida Reef Tract and assessing their potential impact on mucus microbial communities
